About Westchester Medical Center

Westchester Medical Center, an academic medical center of New York Medical College, is home to the leading Kidney Transplant program in the state and one of only a handful of Liver Transplant programs in New York. Westchester Medical Center is home to six distinguished Centers of Excellence, providing advanced, specialized care to thousands of patients of all ages. The Centers of Excellence at Westchester Medical Center include the Trauma and Burn Center, featuring the only burn center between New York City and the Canadian border; the Heart Center, one of the most highly regarded cardiology and surgery programs on the East Coast; the Cancer Institute, offering the latest in cancer therapies including bone marrow and stem cell transplants; the Neuroscience Center, providing neurosurgical and neurological care including “knifeless” brain surgery, a designated stroke (brain attack) service, a comprehensive epilepsy program and a state-of-the-art Cerebrovascular Center; the Transplant Center, providing state-of-the art evaluation and treatment for patients of all ages who require heart, kidney, liver, corneal and bone marrow transplants.

About Newark Wayne Community

Since 1957, we have served generations of Wayne County residents, and many have become members of our growing healthcare family. With new, leading-edge medical technology, a direct partnership with Rochester General Hospital, and highly trained staff driven by our Excellence Every Day program, Newark-Wayne Community Hospital continues to grow in every aspect of its healthcare delivery.
